

## West Sutherland Fisheries Trust Sealice Audit Report

|  |   |
|--|---|
| Date   | 06/12/23                                |
| Site   | Reintraid                               |
| Current sealice management strategy on site  | Ballan Wrasse                           |
| Any planned changes to strategy or additional mitigation measures being introduced?                                | No                                      |
| How were the sampled pens selected?  | All pens except 1 – getting net changed |
| Was an appropriate sampling method used?   | Yes                                     |
| Were good fish handling practices followed?  | Yes                                     |
| Did sample size meet government guidelines?  | Yes                                     |
| Were counts completed to a satisfactory standard? Lice numbers & stages correctly identified & recorded?           | Yes                                     |
| Were the sealice levels observed on the general fish population closely reflected in the S/L count data collected? | Yes                                     |
| Ave. adult female <i>Lep.</i> count at the visit?  | 0.00 per fish                           |
| Presence of Caligus  | 0.14 per fish                           |
